Key Skills – Industrial 3D Printing, Additive Manufacturing Processes, Post-Processing, Quality Control

How to Apply – Please send your CV and Cover Letter to careers@sgd3d.co.uk

SGD 3D is a specialist additive manufacturing company delivering high-quality 3D printed parts for prototyping and low- to medium-volume production. We utilise a range of industrial 3D printing technologies to provide reliable, cost-effective solutions for customers across a wide range of industries including aerospace, renewable energy, and motorsport. This role offers an excellent opportunity to start or progress a career in additive manufacturing, gaining hands-on experience in post-processing, order dispatch, and working closely with teams across the business to meet customer requirements and lead times.

You'll be working as part of a small, close-knit production team, with opportunities to develop practical skills across industrial 3D printing processes. Training will be provided, and no formal qualifications are required.

Main Duties:

- Sort and prioritise orders through the correct post-processing stages
- Operate post-processing equipment and machinery safely and consistently
- Inspect finished parts for basic quality issues before dispatch
- Work to agreed lead times and daily production priorities
- Package parts securely and prepare orders for courier collection
- Prepare and dispatch finished parts using appropriate logistical methods
- Maintain a clean and organised post-processing area
- Communicate issues or delays to the production team
- Follow documented processes and work instructions

Personal Qualities:

- Organised and methodical approach to work.
- A genuine interest in 3D printing and manufacturing.
- Works well as part of a collaborative team.
- Strong attention to detail.
- Technically minded with a willingness to learn.

Essential Skills & Requirements:

- Basic computer skills, including Microsoft Office or equivalent

Desirable Skills:

- Experience or familiarity with additive manufacturing environments (personal, academic, or professional).
